## YOUNG WIFE WALKS 150 MILES TO PLEAD FOR HUSBAND

Mrs. James E. McGuire, 16 Years Old, Says Her Husband Was Wrongly Accused - Believes Folk Will Pardon Him.

REPUBLIC SPECIAL.

Jefferson City, Mo., May 8.-Mrs. James Edward McGuire, the 16-year-old wife who walked 150 miles to attest the innocence of her young husband and pray for mercy at the hands of Governor Folk, continues reticent, modest and retiring as when she first appeared in this city last week, showing little disposition to discuss any subject excepting her husband and his innocence.

She is a gentle, brown-eyed little woman and does not look a day more than her 16 years Mrs. McGuire does onot like newspaper publicity, and it required considerable inducing to urge her to appear before a camera.

"I would rather have you publish my husband's picture than mine," she said, "for then they could all see that he was innocent. He shows by his books that he never done a dishonest thing in his his."

"But why was he with his stepfather, whom he knew to be a horse thief?"

"You would know, if you knew Jim," she said. "He was there because he wanted to be with his mother. Jim and I were trying to help take care of Jim's mother and his younger brothers.

"If he hain't been so goed and kind in trying to look after them he never would have been caught with them. He was not with his stepfather when the old man took the horses, and we tried to get the old man to take them back afterwards, but he wouldn't do it, and Jim didn't want to go and report on the old man, because..."

Mrs. Fisher, the Last of the Women to Wed the Chicago "Bluebeard," Tells of Flirtations While Sister Was Dying.

Chicago, May 8 .- A novel occurrence in riminal procedure was witnessed to-day Johann Hoch.

The innovatinon consisted in a "wife" appearing as a witness in a case involving her "husband," the woman being Mrs. Fischer-Hoch, the last survivor with whom the multi-bleamist underwent the

marriage ceremony. She was called to the witness stand by the prosecution. Before Mrs. Fischer-Hoch was called several witnesses were examined, including the undertaker who buried Mrs. Walcker-Hoch.
Frank Spreyn, the undertaker, testified that the embalming fluid used after the death of Mrs. Walcker-Hoch contained no arsenic. Spreyn's testimony is corrobrated by the results of analysis of the fluid.

DRUGGIST SOLD HOCH MEDICINE. J. M. Schleisser, employed as clerk in a drug store at Sixty-third and Haisted streets, testified that he had frequently soid various prescriptions to Hoch. He identified several of them.

In his direct testimony Schleisser declared that none of them contained arsenic. In his cross-examination, however, he said that one of the prescriptions did contain a small quantity of arsenic.

A sharp tilt between counsel preceded the testimony of Mrs. Fischer-Hoch, but Judge Kersten overruled objections of the defense.

After identifying a bank book that she bad used and saving that Hoch had asked

her to withdraw her money from the bank and turn the proceeds over to him to pay for his house. Mrs. Fischer-Hoch told of gaing to her home with Hoch. ACCUSED HOCH OF MURDER. When they got to the house they were met at the door by Mrs. Sauerborck, who

## NAWN AND THE MERRILLS

HEADLINERS AT COLUMBIA

Tota Nawn revived "Pat and the Genit," his old hit, at the Columbia last night. Nawn is the best delineator of Irish character in vandeville. This is his first anpearance in St. Louis after a tour of Austrains. "Pat and the Genil" is one of those delightfully improbable little dream comedies that never seem to age. If Nawn would vary his performance with a new playlet now and then the old sketch would be worthy of a permanent place in his repertoire.

Crawford and Manning appear in a slapstick minstrel not.

Both are elever dancers, but they prefer Both are elever dancers, but they prefer to give ancient rough and tumble comedy instead of a black-faire monologue with singing and dancing.

The Marvelous Merrills perform new and difficult cycling feats. Mathews and Ashley offer a travesty called "Laugh." Hal Godfrey and company present the one-act faire. "A Very Bad Boo." Tony Ryder exploits his troupe of trained monkeys. The complete programme includes Kine and Gotthold in "A Medical Discovery"; Walden Brothers, Gerdon Eldrid, mimic and menologist: Downey and Willard in "A Dutchman's Troubles," and Weatherby and Grundy.

Readers, don't fail to read Dr. M. Ney Smith's ad, on last page Thursday morn-ing. It will pay you. It is convincing.

St. Louis Coal Magnate Says Freight Rebates Are Out of Date-Satisfied With Tariffs.

Wratt Building, 16th and F Streets, Washington, D. C., May 8 .- O. L. Garrison of St. Louis, president of the Big Muddy Coal and Iron Company, representing also the Illinois Coal Operators' Association, appeared before the Senate Committee on Interstate Commerce today. He said that his company ships 1,000,000 tone of coal and iron a year and that the Coal Operators' Association ships about 31,000,000 tons a year, or 50 per cent of the tonnage of the State. He declared that rebates are a thing of the past. "If they did exist to-day," he said, "the company which I represent would certainly obtain them, and we are not

certainly obtain them, and we are not receiving a single rebate.

"We do not object to the present rates on our products. Those we now have are fair. But we do object to any change or disturbance of present railroad management. If power were given to the interstate Commerce Commission to his rates it would also be a power to change them. Such a result would prove to be extremely undesirable. We desire to continue as at present, adjusting our business relations with the railroads whenever constantly varying commercial conditions demand it."

varying commercial conditions demand it."

Mr. E. P. Bacon of Milwaukee, Wis., who represents about 5% commercial bodies in the United States and who has been a foremest advocate of railroad rate legislation, again testified before the committee to-day.

Mr. Bacon, in presenting his views to the committee, contended that there was only one remedy for the present evils in railroad conditions—and that was the establishment by Congress of a regular tribunal to deal with the subject.

The present Interstate Commerce Commission has done valuable work, he admitted, particularly in settling and adjusting differences between shipper and carrier. But it iswas hampered and its work made heffective by the limitations of the law under which it was constituted. It would not be enough, he said, that the Interstate Commerce Commission should be able to say that a given rate was unjust or unreasonable. It should have the power, he thought, to say by what amount the given rate was out of the way and what the proper, just and reasonable rate should be.

SENATORS GETTING RESTLESS.

SENATORS GETTING RESTLESS. Since they say that their minds are prety well made up as to what they propose to do in the way of railroad rate legislaflon, Senators of the Committee on In-

flon, Senators of the Committee on Interstate Commerce are in a hurry to quit the hearings, which have been in progress here a month, and start in on their summer vacation.

Benator Cullom of Illinois, who favors granting rate-regulating power to the interstate Commerce Commission, has maintained steadily a "grin-and-lear-it" attitude throughout the entire duration of the hearings. Senator Dolliver of lower thinks the same way. Senator Foraker of Ohlo is determined to get away in time for his State Convention, week after next. Democratic members are of the opinion that hearings enough have been held and that it is time to get busy on legislation. But Chairman Elkins is disnosed to pile up further testimony on behalf of the railroads and intimates that he will keep the committee at work at least ten days.

## WAR BETWEEN RAILROADS

I. C. Fires Opening Shot by Large Reduction in Pares to Meet Competition.

A large reduction in passenger fares will be made by the Blinois Central Railroad between Chicago and Kankakee and Decatur and Bloomington. Ill., May 14. This cut will bring the one-way rate between Chicago and Kankakee down from \$1.45 to 90 cents, and the round-trip fare from \$2.5

This radical slash will be effected with the introduction of a new interurban service to meet the competition of trolley lines which will be inaugurated the same day to operate between the points named. A special ticket will be used, but any form of transportation will be accepted. The rates agreed upon are on the basis of 1's cent per miles for round trips.

The new trains will consist of an engine and one car, the latter being one-third for smokers and the rest for nonsmokers. On the Chicago and Kankakee line the little suburban locomotives now in Chicago service will be used. The new trains will make all station stops and in addition will stop at nearly all country road crossings. The latter stops will be designated by signs on which will be the name of the farmer whose property is nearest the

slop.
The extent of the new system will be The extent of the new system will be 169 miles. Between Chicago and Kanka-kee there will be four daily trains in either direction to start with. The run will be made in fewer than two and eneralide hours, and no bagange will be carried. By massummer officers of the Hitness Central hope to have rendy for service on these trains a number of gasoline motors, an appropriation for building the first one having hist been authorized by the company. When the motors are ready the number of trains will be materially increased.

increased.

With the announcement of the Illinois Central it develops that this is the first move of a plan quietly conceived, formed among the big steam railroad managers of the country to unite for a determined of the country to unite for a determined fight against interurban trolleys. The Il-linois roads have been selected to start the battle, and announcements of similar steam interurban service will soon be given in other parts of the country.

Railroad Will Make Hates Same as Those of Electric Lines.

The Wabash road has finally decided to meet the trolley interurban competition between Decatur and Springfield, and commencing with Sanday round-trip tickets will be sold at \$1, the same rate charged by the trolley. The distance is thirty-nine mittes.

In a short time an interurban service similar to that on the Alton will be introduced, the reports from the Alton's tests being very encouraging. The schedule for the interurban on the Illinois Central be-tween Decatur and Ricomington is now being arranged. The date for inauguration is May 14. There will be four trains each way daily, in addition to the present ser-vice on through trains.

Rates on Corn Products. Chicago, May 8.-Complaints made by millers of Missouri River cities against

railroad rates on corn products from Missouri River points and Southern Texas were the subject of an investigation here to-day by the Interstate Commerce Commission. The assertion is made that rates discriminate in favor of Texas and Louisiana miliers. C. A. Davis of Kansas City was the first witness. Mr. Davis stated that at Missouri River points there are twenty-one cereal mills in operation, representing an investment of Ed. 50.50. He said the mills had been in operation for sixteen years, shipping the manufactured products to Texas and Atlantic Coust points. Regarding the rate from Kansas City to Texas on cornmeal. The rate on cofn to the same points, he said, was Nij cents The difference in rate, Mr. Davis declared, thus gave an undue advantage. ratiroad rates on corn products from Mis-
